PROFILE

Technical Lead & Senior Software Engineer with 7+ years of experience architecting, scaling, and deploying enterprise-grade distributed systems. Proven track record in leading cloud migrations (**GCP, OCI, AWS**), legacy systems modernization, and microservices development using **Java (versions 8, 11, and 21** with **Spring Boot and Micronaut**), **Python**, and frontend frameworks (**Angular and React**). Strong expertise in automated testing strategies (**JUnit, Mockito, Cucumber BDD, Groovy, Postman**), code quality and vulnerability management (**SonarQube, OAuth2**), multi-environment **CI/CD** automation **(Git, Jenkins, GitLab, Concourse, Docke**r), and **AI-assisted** development workflows in agile international teams.

EDUCATION

English course - International School of English (Dublin, Ireland.)

- From October 2019 to March 2020 - (***Non Official English Certificate***)

Computer engineering - Universidad Politécnica del Valle de México (Tultitlán, Méx.)

- ***From September 2015 to February 2019 - (Bachelor's Degree)***
- From September 2018 to December 2018 - Professional stay at Mexican air force.
- From June 2018 to July 2018 - Scholarship Summer School in Pisa University - Italy.

PROFESSIONAL EXPERIENCE

Software Engineer Contractor - Centraprise

Guadalajara, Mexico | July 2025 – August 2026

Executed the migration of complex CI/CD pipelines for a large-scale project at a top-tier Big Tech client, utilizing and managing a legacy orchestrator. Adapted and refactored legacy design patterns to ensure seamless integration and deployment within Oracle Cloud Infrastructure (OCI). Collaborated across multiple stakeholder environments to align technical requirements, ensure system stability, and deliver robust cloud solutions. AI training for adapted models.

- Attended Java fixes for **Java 8** and **java 11** distributed systems looking for better performance in memory and circuit breakers.
- Executed the migration and modernization of complex legacy **CI/CD pipelines** for a large-scale project at a top-tier Big Tech client, refactoring legacy design patterns to ensure seamless integration and deployment within **Oracle Cloud Infrastructure (OCI)** and **Google Cloud Platform (GCP)**.
- Implemented modern containerization and orchestration architectures using **Docker** in **GCP containers**, managing end-to-end multi-environment configurations (Dev, QA, Staging, Production) across **Linux-based VMs**.
- Monitored **Artifact Registry (AR)** consistency for cloud-built artifacts and enforced code quality and vulnerability management gates across deployment workflows.
- Integrated **AI agents** to accelerate code development, legacy refactoring, and automated unit/integration test generation, as well as creating curated datasets for AI model adaptation.
- Performed comprehensive functional and integration testing across legacy pipeline orchestrators and GCP environments, logging execution metrics and test evidence in JIRA.

Technical Lead – HCL Technologies
Guadalajara, Mexico | Jan 2023 – May 2025

I led the migration of services from Java 8 to Java 11, developed microservices with Spring Boot and Python, and integrated AWS Lambda for serverless processing. I managed CI/CD pipelines, performed functional and unit testing (Postman, Groovy), and modernized legacy systems in Progress 4GL and TypeScript, ensuring stability and scalability in Linux environments.

- **Migrated services** from **Java 8 to Java 11**, implemented **new features**.
- Performed **functional testing** using **Postman**, **unit testing** with **Groovy**.
- Managed **CI/CD pipelines**, fixed **Linux-based VMs**.
- Designed microservices using **Spring Boot** and **Python** for internal tooling.
- Integrated **AWS Lambda functions** for serverless data processing tasks.
- Maintained legacy systems using **Progress 4GL**, debugged **TypeScript** code.

Software Engineer – Tata Consultancy Services
Guadalajara, Mexico | Mar 2021 – Jan 2023

- Built and tested **Java microservices** with **GCP APIs** using **Micronaut**.
- Developed tests with **JUnit**, **Mockito**, and **Cucumber**.
- Supported **Concourse CI** pipelines, resolved cloud deployment issues.
- Provided **L3** support, participating in war rooms, analyzing logs from **WebSphere** servers and patching features in execution.

Software Analyst – INETUM
CDMX, Mexico | Jun 2020 – Mar 2021

- Developed web apps and **microservices** using **Java Spring Boot** and **Angular**.
- Maintained **Oracle databases** and **WebSphere 2019** systems.
- Provided **L2** support attending tickets in Agile method.

Junior Developer – ALTRAN
Estado de México | Jun 2019 – Oct 2019

- Developed **Windows desktop apps** using **Java 8**, **C#**, and **.NET**.

Android Developer – Actin
CDMX, Mexico | Feb 2019 – Jun 2019

- Created **Android apps** using **REST services**, **JSON**, and **MySQL**.

SKILLS AND EXPERIENCE:
Languages & Backend Frameworks: Java Core Java 8 (4 yrs), Java 11 (3 yrs), Java 21 (<1 yr), Spring Boot, Spring Security (OAuth2), Spring Data JPA, Hibernate, JSP, RESTful & SOAP Web Services (3 yrs), Micronaut, Python (1 yr), Groovy (2 yrs), C#, .NET, Progress 4GL, OOP (5 yrs).

Frontend Development: Angular (2 yrs), React (2 yrs), TypeScript, JavaScript (4 yrs), HTML5 (4 yrs), CSS3 (3 yrs).

Testing, QA & Code Quality: Unit, Integration & BDD Testing (JUnit, Mockito, Cucumber, Groovy [2 yrs]), API & Functional Testing (Postman [4 yrs]), Static Code Analysis & Vulnerability Management (SonarQube), Test Management, Defect Tracking & Test Evidence Documentation (JIRA).

DevOps, CI/CD & Environment Management: Multi-environment Management (Dev, QA, Stage, Prod), CI/CD Pipelines (Jenkins, Concourse, Bamboo, GitLab CI [3 yrs]), Docker, Kubernetes, Linux/Unix VM Orchestration.

Version Control & IDEs: Git, GitHub, GitLab, GitBash (4 yrs), IntelliJ IDEA, Visual Studio Code, Eclipse, NetBeans (5+ yrs).

Cloud & Security: Google Cloud Platform (Cloud Storage, BigTable, Artifact Registry, GKE), AWS (Lambda, IAM Configuration, ECR, EC2/RDS), Oracle Cloud Infrastructure (OCI).

Databases: Oracle Database (3 yrs), MySQL (3 yrs), SQL (3 yrs), MongoDB (2 yrs - CRUD & microservices integration).

Methodologies: Agile / Scrum (5 yrs), Legacy System Modernization, AI-Assisted Engineering (AI Agents & Model Training Datasets).

PERSONAL INFORMATION:

- Languages: Spanish (Native), English (Fluent - C1), Portuguese(Basic-A2).
